

4 facts YOU need to know

about stroke prevention

- 80% of stroke victims had no apparent warning signs.
- Ultrasound screenings can help you avoid a stroke.
- Stroke is a leading cause of death and permanent disability.
- Screenings are fast, painless, affordable and convenient.

A stroke screening is coming to your neighborhood:

Where: Cedar Hill - Cedar Hill Church of Christ

When: Friday, March 19, 2010

Bring Family & Friends!

Pre-registration is required. Call: 1-800-324-1851

Source Code: ISC5726

We Can Help You Avoid a Stroke

Trusted by Hospitals Nationwide

Life Line Screening has partnered with over 370 hospitals across the country and has screened over 5 million participants. Why? Because the ultrasound screenings that we offer can help save your life.

1 Stroke/Carotid Artery Screening

Ultrasound evaluation of the carotid arteries that screens for buildup of fatty plaque – the leading cause of strokes.

2 Heart Rhythm Screening (Atrial Fibrillation)

Painless 6 lead EKG that can detect an irregular heart rhythm. Atrial fibrillation increases the risk of stroke 5 times.

3 Abdominal Aortic Aneurysm Screening

Ultrasound is used to screen for the presence of an aneurysm in the abdominal aorta that could lead to a ruptured aortic artery.

4 Peripheral Arterial Disease Screening

Evaluates for peripheral arterial disease (plaque buildup) in the lower extremities. It is 4-5 times more likely you will die from heart disease if you have peripheral arterial disease.

5 Osteoporosis Screening

An ultrasound measurement of the heel bone to determine abnormal bone mass density. Osteoporosis is painless and silent in its early stages.

***Stroke, Vascular Disease & Heart Rhythm Package;
all 4 tests for only \$139
Add an osteoporosis screening for \$10 more;
all 5 tests for \$149 (\$66 savings!)***

You will receive your results in 21 days. Our screenings cannot detect all forms of stroke and heart disease and do not replace regular contact and follow up with your physician. In Texas, physician authorization from a Life Line Screening affiliated physician is required and does not require any action on your part. Should you have these life saving tests? Don't hesitate to ask your doctor.

Insurance Note: Life Line Screening does not participate in the Medicare program and the cost of these screening services is not reimbursable by Medicare. Life Line Screening does not file insurance claims.
